

In order to Detect, Diagnose & Destroy, the risks of attacks, organizations need to utilize professional expertise to secure their infrastructure and application.

**Skillmine offers services that help mitigating the risks of security breaches:**

### Vulnerability Assessment

Assessment of risks posed by security vulnerabilities in your systems

### Infrastructure Penetration Testing

Penetration testing to simulate a hacker attack on your critical network infrastructure & applications

### Configuration Review

Review of configurations to determine weakness

## Our Approach

We undertake the VAPT as a professional & comprehensive solution that include

Preparation	Develop Plans	Conduct Analyse>Document>Report	Follow up
<ul style="list-style-type: none"> <li>Assist the client to prepare for the VAPT</li> </ul>	<ul style="list-style-type: none"> <li>Development of VAPT Plans</li> </ul>	<ul style="list-style-type: none"> <li>Conduct VAPT and analyze</li> <li>Documentation, and reporting of the results with recommendations</li> </ul>	<ul style="list-style-type: none"> <li>Post-assessment follow-up</li> <li>Confirmatory scans</li> </ul>

## Proposed Deliverables

- Overall risk posture.
- Identification of specific vulnerabilities or risks
- Categorization into **High/Medium/Low Risk** with evidence and testing node labelling.
- Clear recommendations for remediation.
