

CISO as-a-Service

Information & IT Security Services is one of the niche and core expertise of Skillmine.

The main objective of CISO-as-a-Service is to enable our Customers for Information Security Assurance in line with regulatory compliance of ISO, PCI, HIPAA, GDPR, SAMA CSF, etc.

These in-depth services help organisations to identify their current information security maturity and the threat landscape. This will help to understand what needs to be protected and the level of protection required. CISO as a service delivers the Information Security Strategy, Roadmap, Advisory and Execution of Technical Services. It will ensure that the basics are implemented and maintained, risks are reduced and the maturity of Information Security is raised.
